Amadeus Currency Converter

Increase revenues while improving customer experience

Amadeus has partnered with Continuum, a leader at the cutting edge of payment currency conversion services to deliver Amadeus Currency Converter, a product which enables you to generate new revenue from current payments, while enhancing customer experience.

With Amadeus Currency Converter you can give your customers the possibility to pay in their preferred currency while also generating ancillary revenue from a margin included in the currency exchange rate.

Key features and benefits

Generate new revenue streams

- _ By capturing a margin included in the exchange rate

Improve customer experience

- _ Customers can pay in their preferred currency
- _ Customers are guaranteed price certainty at the time and point of purchase
- Minimise implementation and quick time to market
- _ Faster implementation due to minimal integration requirements for web services
- _ Minimum impact on airline revenue accounting systems

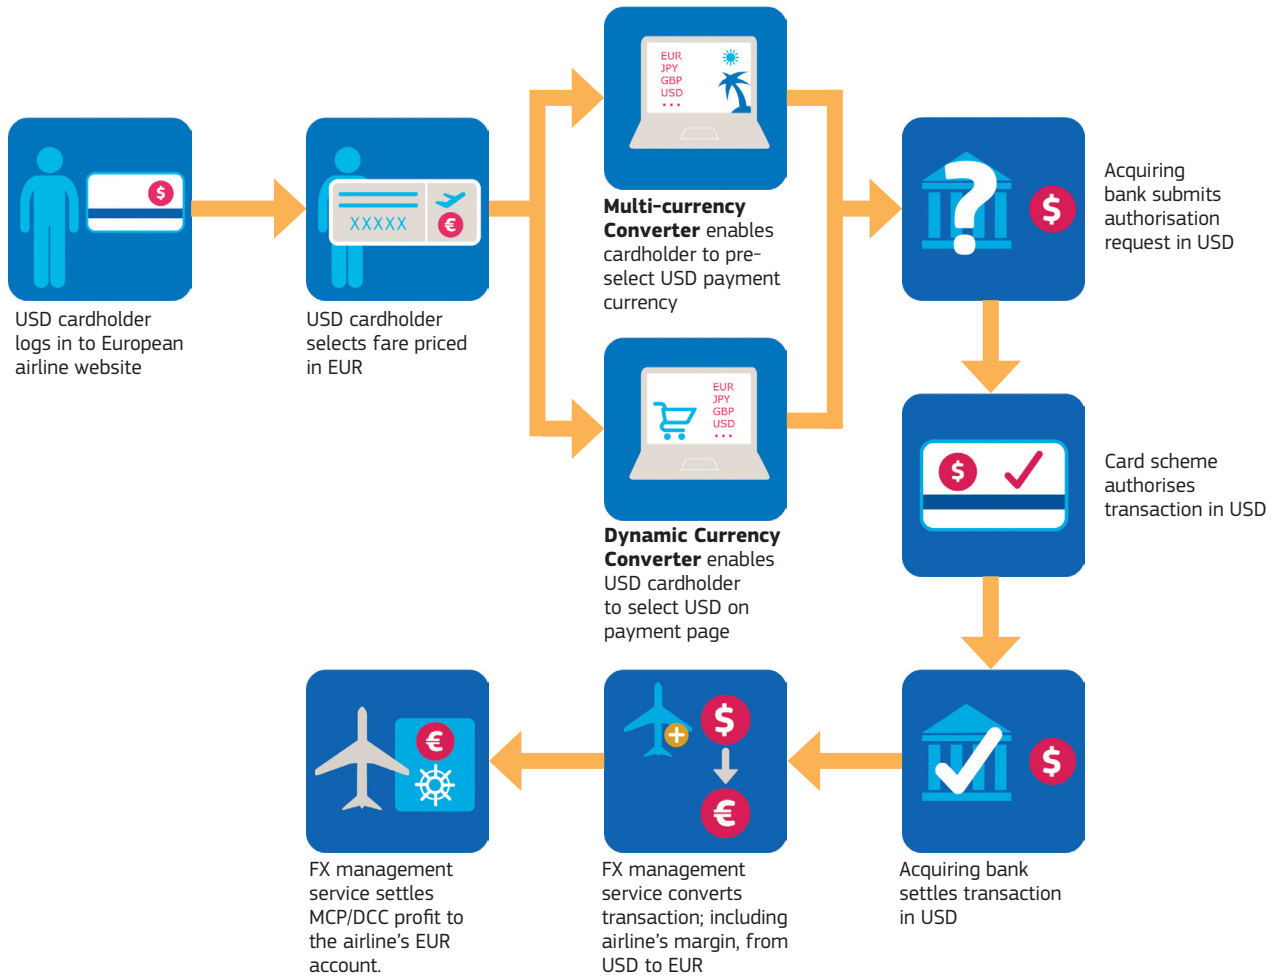

Tracking and monitoring tools

- _ All payment details are visible through Amadeus Payment Manager
- _ Possibility to build specific reports for 3rd party systems
- _ Store all currency conversion details in the PNR

Amadeus Currency Converter is available in two modules:
