

Amadeus One Inventory

One platform to power your growth

amadeus

Integrate

Amadeus One Inventory helps leisure package sellers transform their business and reach high levels of performance making your business more efficient, scalable and future-proof.

Integrate a world of travel content with **1 single platform**, make processes more efficient *and* adapt to future business needs as they change and evolve.

And with sophisticated **package creation tools**, you can save time too. By configuring and integrating automatically into your business, the platform adapts to fit around your true business needs.

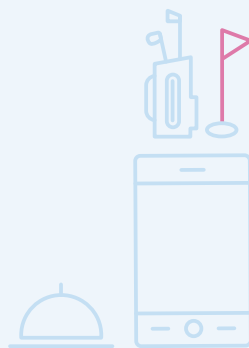

More efficiency by centralizing all travel content, processes and other systems in 1 place. **1 platform that integrates systems and content** into your existing infrastructure.

- Both **own travel content & from external providers** on one platform
- All your packaging tools in **one user-friendly system**
- **Smooth interoperability** between your own and 3rd party systems
- **Reduce** content maintenance **costs by 50%**

Automate

1 unified platform allows you to create travel packages quickly and efficiently so your staff can spend more time selling to customers.

- **Intuitive package creation flows** that adhere to business rules
- **Integrated booking flow** includes automated upselling prompts
- **Integrated CRM data** automatically fills in customer data
- Automatic creation of **booking related documents**
- From package creation right through to sale, **all tools are integrated in a single system with just 3 clicks** to turn a quotation into a booking

Optimize | 1 platform that adapts to your business model & packaging needs.

- Select to **use the entire platform or just the modules you need**
- **Centralize the management** of all your business rules
- Built so you can **create and sell dynamic, fixed or tailor-made packages**
- **100% adaptable** to your business model
