

# Amadeus Selling Platform Connect

Quarterly product update: Q2 2023

New enhancements. Key highlights. Productivity hacks.

## Share smart flows & quality monitor rules

Easier and faster cross-organization and office ID sharing of Smart Flows & Quality Monitor Rules. Forget about duplicating efforts and increase your productivity.

## Enhanced booking file order

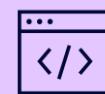

Booking File new order and default collapsed sections to see critical info at a glance. Badges summarizing section content, and less scrolling for greater efficiency.

## More speed with the new search bar

Work faster using the fresh search bar. Increased comfort, improved navigation, and added productivity for keyboard lovers.

## NDC: more search parameters & upselling

Supplementary fare restriction options to refine search requests. Serve travelers better with more relevant results, and additional upselling power.

## NDC: managing involuntary change

Travel consultants may or may not confirm a trip proposal from an airline in case of an involuntary change of the whole itinerary.
