

EXAMPLES

Request Mini Rules at pricing time

Mini Rules are available once the PNR has been priced. If the system returns several pricing recommendations, one needs to be chosen (with FXT or FXV) before a Mini Rules request.

If a segment is deleted after pricing, the PNR must be re-priced before requesting the Mini Rules display.

Request Mini Rules from Amadeus Offers

In Amadeus Offers, Mini Rules display can be requested only once the PNR containing the Offers has been end-transacted. Mini Rules can be requested directly from the PNR display.

```
--- OFR ---
1.DOE/J MR

>RTOF
1 OFFER                                2000.00 EUR

```

```
>FWR/O1
```

Request Mini Rules from TST

Mini Rules can also be requested from the TST display.

```
--- TST ---
1.SMITH/P MR

5 TK OK19JUN/NCE1A0000//ETAF
```

```
>FWR/T
```

Request Mini Rules from eticket

Mini Rules can be retrieved using the eticket number in two ways:

_ Display using the eticket number after the entry FWR. This entry can be used in a stand-alone way. PNR retrieval is not necessary.

```
FWR/TKT123-4567890123
```

_ Mini Rules can also be displayed from a PNR by using the FA/FHE line number associated to the ticket.

```
FWR/L2
```

Common error messages

RESTRICTED

This error is returned when Amadeus Mini Rules is not activated for the Office ID requesting the display.

NO FARE RULES FOUND

In the pricing flow, this error is returned when the 3 minute delay for Mini Rules availability is over. In the other flows it is returned when Mini Rules data has not been found. The most common explanation for this is that the TST or Offer has been created with Mini Rules switched off.

NEED END TRANSACTED OFFER

End transaction (ET) must be entered between Offer creation and Mini Rules display. If this end transaction is missing, Mini Rules will not be displayed and above error message will be returned.

Welcome to Amadeus Mini Rules

Amadeus Mini Rules provides a short, clear summary of the most important fare rules applied for a given pricing so they can be quickly and easily understood.

Mini Rules data is based on the fare rule restrictions that are processed and validated for a given pricing context. This enables Amadeus customers to produce coherent text and create necessary translations so that the traveller, the final end user, can easily understand the restrictions related to the fare being purchased.

How to access Mini Rules

In order to construct Mini Rules, a pricing context needs to be created. This means that a pricing transaction needs to be performed before trying to access Mini Rules.

Pricing transactions for Mini Rules processing

The different type of pricing transactions that allow the creation of Mini Rules include itinerary pricing, Best Pricer and re-pricing using Amadeus Ticket Changer (ATC). This includes both informative and confirmed pricing transactions.

The following list gives all the applicable pricing transactions:

Pricing: FXX, FXP (followed by FXT, FXV if required to get a pricing)

Best Pricer: FXR, FXB, FXL, FXA (followed by FXZ, FXU if required to get a pricing)

ATC re-pricing: FXF, FXE, FXQ, FXO

Once Mini Rules have been created during pricing, they can be immediately retrieved for up to 3 minutes after pricing from the context. After this time, they can be retrieved from the created TST, using an e-ticket number or an Amadeus Offer record.

What data is returned

Mini Rules highlights the most important fare conditions for a given pricing for the following fare rules:

- _ **Voluntary changes**
- _ **Voluntary refund**
- _ **Advance reservation and ticketing**
- _ **Minimum and maximum stay**

Mini Rules displays reissue and refund conditions for flight/ticket changes or cancellation in the following situations:

- _ **Before Departure** = Prior to departure of journey
- _ **Before Departure No Show** = If passenger fails to show at first flight
- _ **After Departure** = After departure of journey

_ **After Departure No Show** = If passenger fails to show at subsequent flights

For each of these situations, Mini Rules returns the following information:

- _ Revalidation, reissue and refund allowance of each fare component
- _ Minimum and maximum penalty fee per fare component for revalidation/reissue and refund
- _ Maximum penalty fee per ticket for revalidation/reissue and refund
- _ Ticket validity

Cryptic entry and options

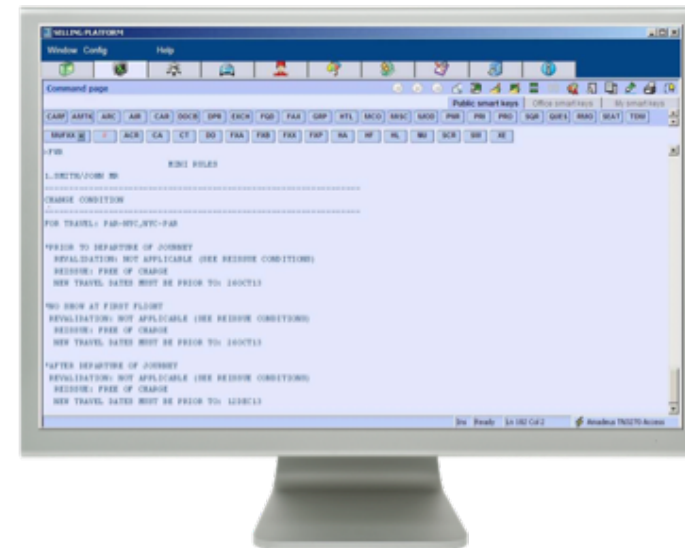

The **FWR** entry is used (with options) to automatically display Mini Rules. The text is displayed in English by default for all passengers in the pricing reply.

Functionality	Cryptic entry
Display Mini Rules after pricing for all passengers	FWR FWR/P1,3-5
Display for a range of passengers	FWR/PAX
Display Mini Rules for all adults in PNR (not infants)	FWR/INF/P2
Display Mini Rules for infant associated to passenger 2	
Display Mini Rules for all Offers	FWR/O
Display for a range of Offers	FWR/O2-5
Display Mini Rules for Offer 2, PQR 1	FWR/O2/Q1
Display Mini Rules for all TSTs	FWR/T
Display for a range of TSTs	FWR/T2-5,7
Display Mini Rules for a ticket	
- Using the eticket number	FWR/TKT123-4567890123
- From the FA/FHE line in the PNR	FWR/L2
