

The Smarter Way to Communicate

Amadeus Dynamic Travel Documents

Ever thought of giving your agency a competitive edge just with your travel documents?

With Amadeus Dynamic Travel Documents, you provide them with a superior and more convenient travel experience than they've ever had.

Amadeus Dynamic Travel Documents (ADTD) is a suite of documents that allows travellers to view their complete trip information in a single document.

Deliver branded full trip information in a single document

Amadeus Dynamic Travel Documents brings the essential travel information your customers expect in the language and format of their choice. This way they don't miss any detail on each of the segments, be it flight, train, hotel, ground transportation, car rental or insurance - be it on an Amadeus or non-Amadeus booking.

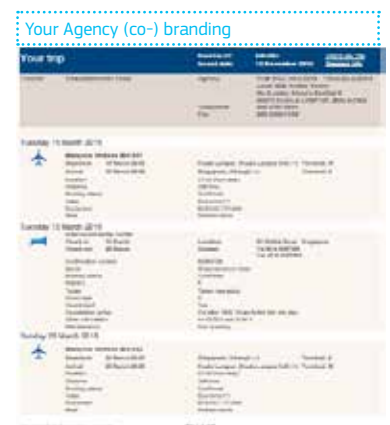

Differentiate your service

Adding customised information, a disclaimer or offers to up-sell segments becomes easy and requires no external support. You can also decide to display a partner's logo with yours. Your travel documents are not only professional, but personal. The stylish documents you create reflect your agency's (multi-)brand and personality,

triggering recognition. You provide your customers with a superior and more convenient travel experience than they've ever had.

Benefit from simplified processes

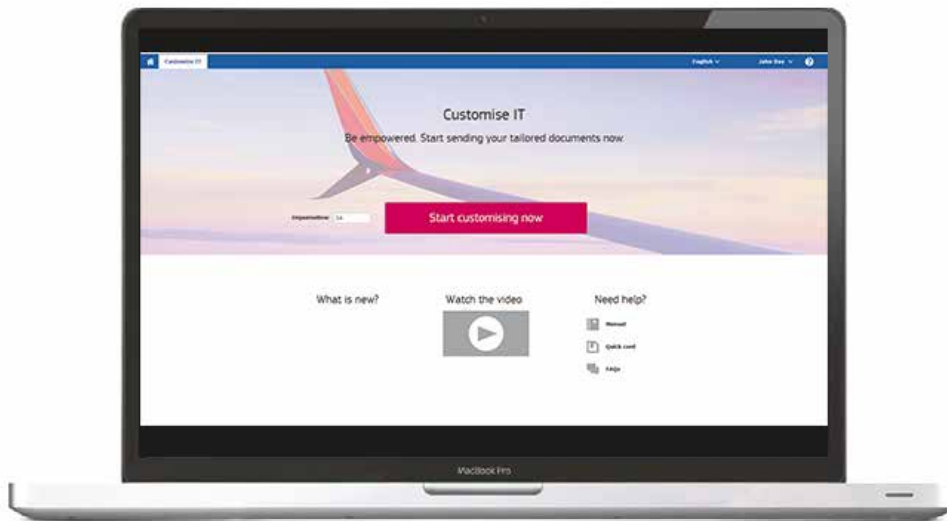

Managing your solution effortlessly directly from Amadeus Selling Platform or Amadeus Selling Platform Connect saves your time. So do the automated functions available. With its intuitive graphical user interface and simple cryptic entries, ADTD is seamlessly integrated into your existing workflow with minimal training required and no time-consuming installation.

Provide your customers with a comprehensive, personalised and customised, professional travel document

Personalise and Customise

With Customise IT layout management tool you personalise at PNR level, based on your agency's needs.

Personalisation:

- Send documents in a specific language
- Attach ICS calendar with the document to synchronise with customers' calendar
- Choose between 26 options available

Customisation:

- Choose between +50 custom settings per layout
- No need to submit and wait for changes to be made by 3rd party or GDS

Create and design your own documents with our flexible options:

ADTD Itinerary Lite

- Free version with Amadeus managed advertisements

ADTD Itinerary Custom

- Chargeable version with no advertisement

Deliver full trip information in one single, clear itinerary

Combine PNR and Amadeus Total Travel Record (ATTR) related content:

- itinerary comprehensive travel plan
- e-Ticket Receipt: legal receipts of payments
- Amadeus Offers: best-matching offers
- all mandatory requirements and customised content:
 - destination-based information
 - CO₂ emission data
 - your agency's branding or co-branding
 - your agency's social media links
