

# Amadeus e-Power Consolidator

Empower your affiliates, drive your business

Looking for the right solution to develop your network and counter shrinking revenues and margins? If you also strive to provide your affiliated agencies with a quick access to the relevant fares via an intuitive interface, Amadeus e-Power Consolidator is made for you.

Easy to deploy and designed to ensure control of your business performance, this solution will keep your agencies ahead of the game!

As travellers increasingly enjoy easy access to various search and booking tools, it becomes crucial for you to provide a solution enabling your agents to drive their business skillfully.

### Maximum reach with minimum investment

With no installation required and automatic upgrades, Amadeus e-Power Consolidator is accessible anytime, anywhere. Your network management and expansion is further facilitated with the hierarchical administration of the agencies and the ability for agents to self-register.

### Your network's performance

The solution supports advanced revenue management features key to ensure alignment to your commercial strategies and policies: hierarchical administration of the travel agency groups belonging to your network

including additional group level management as well as secondary level service fees and mark-up settings.

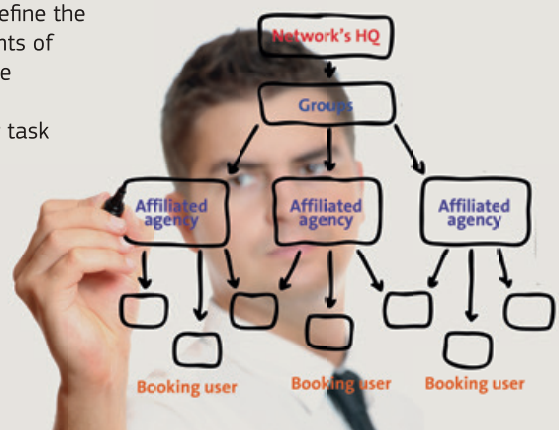

Furthermore, specific business logics can be defined per agency. Each of them also has the possibility to manage its multiple booking users.

With the powerful administration tools, your agencies focus on selling while complex tasks, such as ticketing or changes are fulfilled by your headquarters. You can define the credit levels and payments of the travel agencies, while also limiting roles and permissions allowing for task specialisation.

This efficient network management streamlines your business performance.

Take the right decisions and adapt your strategy thanks to accurate reporting.

As each booking is tracked, every affiliated agency can generate real time reports on saved commissions, created PNRs, credit limit balance or double layer service fees and mark-ups.

## Higher revenues and more margins

To capture travellers' bookings and earn higher commissions, it is essential to expand your offer beyond air. With the access to aggregated GDS and non-GDS content your travel agencies will stand out among competitors.

Amadeus e-Power Consolidator also integrates your negotiated content with that from external providers' -seamlessly.

Additional relevant features reinforce your agents' selling role: they access the cheapest and most reliable fares, with up to 250 air recommendations in a single transaction and easy comparison between full service and low cost carriers. They can also search simultaneously for flights, hotels and car within the same booking, or receive adapted hotel and car rental proposals, once a flight is selected.

The guided workflow guarantees consistent navigation with an adjustable interface to each agent's preferences.

Importantly, Amadeus e-Power Consolidator requires no investment in software, hardware or hosting, keeping the deployment and running costs to a minimum.

## Trusted technology partner

As the global travel industry's leading technology partner, Amadeus is committed to helping you overcome your biggest business challenges by continuing to provide innovative and advanced integrated solutions, plus best-in-class support and expert consulting services.
