

Amadeus Light Ticketing

Booking LCCs on Amadeus is so much easier!

Quick Guide

Making a low-cost carrier (LCC), booking in Amadeus is identical to booking any traditional carrier, using one simple workflow. Select the flight and let Amadeus Selling Platform do the rest. From the data available in the PNR and passenger profile, a confirmation e-mail is automatically sent to the traveller and an invoice is generated enabling one single payment across the booking.

November, 2016

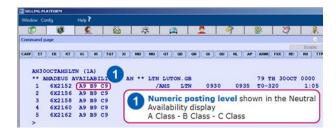

BOOKING ENTRIES

1. AMADEUS NEUTRAL AVAILABILITY

>AN20JUNAMSLTN is the standard availability entry with actual numeric posting available.

2. SEGMENT SELL

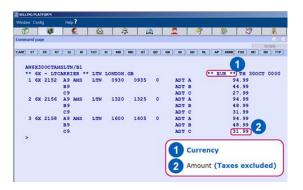

>SS1A1 from 6X neutral availability (screen above), standard short sell entry OR

>SS6X2156A30OCTAMSLTN1 - direct long sell entry

3. AVAILABILITY AND FARE DISPLAY (OPTIONAL)

>ACW3/B1 = optional after AN for fare display OR

> AW6X30OCTAMSLTN/B1 = long availability entry. From neutral screen, you can request 6X availability and fares in real time. This is an optional entry for light ticketing carriers

>FLC1/A = from 6X availability screen, the fare rules are displayed.

4. PNR ELEMENTS

>NM1SMITH/JOHN MR = name (as it appears on passport)

>AP 33123456789 = phone number (optional)

>APE-JOHN.SMITH@EMAIL.COM = only first email address sent to 6X

>AB = traveller's billing address (this information will be transferred to the carrier, if not entered the Office Profile's address will be the one sent)

>TKOK = ticketing arrangement

>FPCCVIXXXXXXXXXXXXXX1111/0113*CV/HFAKE

HOLDER = Form of payment (mandatory for light ticketing). For more details on forms of payment supported per carrier please refer to the help pages – GGAIR - of the concerned carrier.

5. SSR (SPECIAL SERVICE REQUEST)

For the detailed list of special services supported per carrier please refer to the catalogue of services or to the carrier's GGAIR help pages

>FXK = catalogue of services

6. CHOOSE A SEAT

>SM/2/A displays seat map in real time from AN/PNR/ stand-alone request. (2 for flight line number, A for class of service)

Standard symbols used in the seat map:

(+) occupied, (.) free available seats, (Y) for chargeable standard, (B) extra legroom, (V) upfront seats (fast exit)

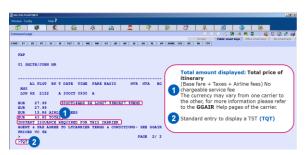

>ST/2F pick the seat #02F

7. PNR PRICING

>FXX (optional) – standard informative itinerary pricing entry (without TST creation)

>FXP – standard itinerary pricing entry

Depending on the carrier, the currency returned at pricing time may be the one from the point of sale or from the point of departure. Please refer to the carrier's GGAIR help pages for more information.

>FXH (optional) – standard informative ancillary services pricing entry (without TSM creation)

>FXG – standard ancillary services pricing entry (mandatory if there are services in the PNR).

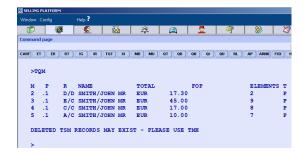

Depending on the carrier, fare differentials may applies for certain fares. For more information, please refer to the carrier's GGAIR help pages

8. TST and TSM DISPLAY (OPTIONAL)

>TQT is the standard TST display (Transitional Stored Ticket)

>TQM is the standard TSM display (Transitional Stored MCO)

9. END OF TRANSACTION (OPTIONAL)

>ER is the standard entry to end the transaction, save the PNR and create Amadeus record locator.

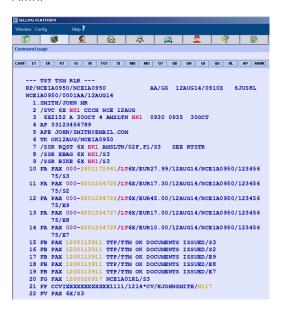

Ending (ET – End Transaction or ER – End and Retrieve Transaction) the PNR generates an Amadeus reference but flight segments and services remain on HN status (unconfirmed). Once the ticket numbers have been issued the PNR is confirmed by the carrier, the status codes of the flights change to HK and the carrier's reference can be displayed through the RL format.

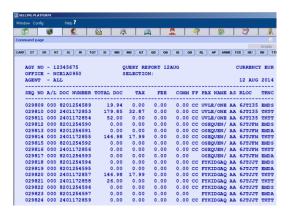

10. LIGHT TICKET ISSUANCE (TTP/TTM)

- > TTP/TTM Issue together the light tickets for itinerary/services.
- > Pay and confirm the booking for itinerary and services.
- > Light tickets issued are non-displayable, there is no ETKT nor EMD created after a light ticket issuance.
- > Triggers the sending of standard back-office A.I.R.

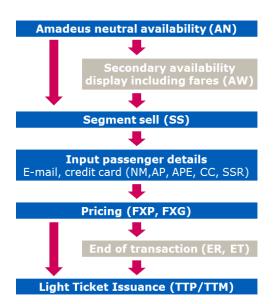

11. DISPLAY ONLINE SALES REPORT

- >Light tickets issued are available in dedicated partition of online sales report
- >Light tickets issued are not reported to ARC/BSP. No RET/SPRF file sent to BSP/ARC.
- > TJQ/SOF/T-6X

BOOKING FLOW FOR LIGHT TICKETING CARRIERS

- Optional secondary availability entry to display fare info.
- E-mail address and form of payment are mandatory elements before end of transaction
- The payment is processed during the light ticket issuance TTP/TTM.

Amadeus gives you access to 60+ low cost and hybrid carriers directly within your Amadeus Selling Platform.

To know the features that are supported by a given carrier, please refer to its GGAIR help pages.

Booking a low cost carrier in Amadeus is just as easy and profitable as booking a traditional airline.

Thanks to the new Amadeus Light Ticketing

Functionality, you now have access to even more low cost carriers that can be booked easier and faster following the same booking and data flow as full ticketing carriers available in Amadeus.

Contact

For more information on booking light ticketing carriers via Amadeus, please contact your local representative.

Note: Booking via this method is PCI-DSS compliant
