

## Amadeus Worldwide Payment Acceptance

Your customers want to pay you...  
you should let them

### One link to a world of payments

**Receiving payments from willing customers is surprisingly complicated. If you are planning to enter a new market you need to know the most popular payment options in that country, and you need to check that your current acquiring bank has connections to those options.**

**Even in your existing markets, the rise of travellers from fast-developing countries means more and more potential customers want to pay using local cards which your current acquiring bank can't accept.**

**And if that were not enough, each day we hear about the launch of new forms of payment such as Paypal, Alipay, Apple Pay, Square, Connect2 and Google Wallet.**

**It doesn't need to be this complicated. With Amadeus Worldwide Payment Acceptance you create one link, to the Amadeus Payment Platform, and we enable your travel agency to accept payments from close to 300 acquiring banks and other methods of payment around the world.**

#### Key Benefits

##### Increase sales

Increase your sales by increasing the percentage of payment transactions you accept (acceptance ratio)

##### Enter new markets easily

Amadeus Worldwide Payment Acceptance is already connected to all major local and international payment options so there is no need for you to research the right payment options and build specific links to remote acquiring banks.

##### Reduce the cost of integrating and maintaining your payment links

With Amadeus Worldwide Payment Acceptance you connect once and we enable you to access close to 300 acquiring banks and methods of payment around the world.

##### Cut sales costs

Reduce your sales costs with the possibility to switch easily between different acquiring banks.

##### Secure business

Secure your business by providing multiple links to a single acquirer: if one link fails we can route your payment through a fallback link

##### Reduce tracking costs

Reduce the cost of tracking payment transactions by providing a single management tool, Amadeus Payment Manager, which gives access to all transactions worldwide, independent of the acquiring bank or the link used.

## Key features of Amadeus Worldwide Payment Acceptance

### Card authorisation

- \_ Obtain instant payment authorisation for Visa, MasterCard, Diners Club, JCB, American Express, Union Pay and UATP credit cards.

Some of the methods of payment currently available

### Reversal and payment refunds

- \_ Amadeus facilitates the cancellation of payments by offering quick and easy reversal and refunds, meaning that your customers are never left out of pocket.

### Retry and fall-back functionality

- \_ If a payment transaction fails, Amadeus will re-direct the transaction to the same acquirer using a different link.

### Pre-defined routing for payment processing

- \_ The Amadeus payment solution allows you to route each payment to the most appropriate acquiring bank, according to criteria such as merchant ID, vendor, market, country, and currency. This enables you to make a significant cost saving.

### Authentication checks

- \_ Verify that the purchaser is the owner of the card and is in possession of the payment card at the time of purchase.
- \_ Security code for Visa, MasterCard, American Express, Discover, Diners Club and JCB
- \_ Address Verification Service for Visa, MasterCard and Discover (USA issued cards only) and for American Express (worldwide)
- \_ 3D Secure: Amadeus has its own 3D Secure merchant plugin, allowing any travel agency using Amadeus Worldwide Payment Acceptance to benefit from the security of 3D Secure authentication without additional certification.

Let's shape the future of travel.

## Amadeus in Payments

Amadeus Travel Payments is a team of experts positioned at the crossroads between technology, travel and payments. Since processing its first travel payment in 1992, it now processes around USD 100bn worth of payment transactions a year. Amadeus offers a travel-customised payment platform, which enables travel companies of all types to accept payments from their customers and make payments to their suppliers.
