Effortless access to generous commissions

Amadeus Insurance enables you to sell trustworthy products from globally recognised providers.

Simply choose the right combination of insurer and cover from the drop-down menus. If you have a preferred provider you can easily set them as your system default. The rest of the information is filled automatically from the PNR, making insurance booking as simple as 'click-to-send'.

Individual service means satisfied customers

Your customers want to protect themselves against travel risks like cancelled flights and medical emergencies.

Amadeus Insurance enables you to offer a high quality insurance product that perfectly meets their needs and fits their destination.

With just a few clicks you've done much more than simply sell insurance. You've provided excellent service and shown that you care, – a recipe for loyal customers and a strong business.

Convenient sales tracking and reporting

New functionality allows you to accurately track your sales activities, – daily, weekly or monthly using a free online insurance sales reporting tool.

“Booking is quicker and we minimise the risk of mistyping because a lot of the information is already stored in the system. You also get a very good summary of the orders.”
