# AMADEUS

Amadeus Hotels
Quick-Connect

One Connection.
Over Two Million Hotels.
Endless Possibilities.

A modern, single API to access and integrate the richest hotel booking offer into your booking engine.

Designed to simplify the complexity of hotel content distribution.

Fragmented hotel content and complex integrations slow down operations and limit growth. Amadeus Hotels Quick-Connect provides seamless access to over 2 million hotels through a single REST/JSON API. By simplifying content access, you can **save time, reduce costs, and streamline hotel distribution**, allowing you to focus on delivering better results for your travelers.

5 key benefits for travel sellers

1. Access the hotel content you need

Connect to GDS hotel chains, Amadeus Value Hotel net rate program, aggregator content or your private agreements – all through one streamlined connection. Offer travelers a variety of rate types, including public, corporate, negotiated, loyalty, and promotional options.

2. Fast, developer-friendly integration

Leverage REST/JSON technology for a fast end simple integration that reduces complexity and accelerates deployment. Go live in as little as four to six weeks with support from Amadeus experts and detailed supporting documentation.

3. Flexible business models & payment solutions

Choose prepaid for upfront revenue and mark-up control, or postpaid for commission-based earnings – plus flexible payment options like virtual credit cards, agency cards, traveler cards, and credit lines to support your business.

4. Effortless post-booking management

Modify, retrieve, or cancel bookings in real-time with intuitive post-booking tools. Manage multi-room bookings, dynamic pricing, and flexible cancellation policies with ease.

5. Reliable performance, that scales with your needs

Benefit from fast response times for a seamless booking experience. A modular, high-performance platform adapts to high transaction volumes and supports your business needs.

Why travel sellers choose us

Simplify operations
Consolidate fragmented content sources into one API for your convenience.

Save time & resources
Minimize integration efforts and go live in weeks rather than months.

Grow revenue
Access better content and more rate options to boost bookings.
