## How does it work?

All **Amadeus Value Hotels properties** are seamlessly integrated into our hotel platform. This means that once you have signed up to the programme, you will see **Amadeus Value Hotels** content together with your most booked hotel providers, and you can combine and offer it together with other travel products like flights, car rentals, etc.

Amadeus grants your travel agency with an agreed **credit line** to book **Amadeus Value Hotels**. You are able to modify your **agency fee** on the 'Payment page', so you always have full control over your earnings. You earn this agency fee at time of booking and Amadeus will only invoice you for the net rate. After payment of each invoice, the credit line amount will be recharged automatically.

Once you have sold a room, you receive two confirmation documents to the email address entered in the booking flow: a **hotel voucher** for the guest and a **confirmation email** for your travel agency. It couldn't be simpler!

## Sign up in 3 easy steps!

**01.** Complete the Amadeus Content Agreement and return to Amadeus with your logo, your customer set-up form and your agency fee.

**02.** Once we perform the credit check and it is validated, we will issue you with a SEPA Direct Debit mandate to be completed and returned to your bank and Amadeus.

**03.** That's it! We will configure the technical requirements so you can start booking in Amadeus Value Hotels.

*"We know it can be time-consuming and challenging to convince hotels to give you net rates. If your agency does not belong to one of the major travel management groups, it can be difficult to get noticed.*

*However, you want to be able to provide your clients with competitive rates, while driving revenues to your agency from hotel sales. There is a simple answer."*
