MEET OUR ROBOTS

The world is beginning to open and move again. Every spare moment to earn revenue matters so your travel business can take off and thrive. Automation through robotics can be one of your greatest profitability allies.

Times are tough. Travel sellers are entering recovery with reduced staff, manual processes and messy data.

Front line agents are drained by daily repetitive and operational tasks required to keep up with the increasing pace of schedule and other segment changes brought on by post-pandemic travel.

Now is the moment to reexamine your approach and ensure your business realizes the *full potential* of **Amadeus Robotics**.

Our integrated collection of robotic applications can handle all the repetitive and labor-intensive back-end jobs. Look at how they handle Amadeus queues, PNRs and issuance activities, each robot is designed to help you stay focused on driving revenue.
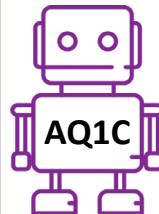

Amadeus Robotics
Maintain your business edge.
Let robots do the dirty work.

Getting a Grip on **Queue Management**

### Auto-Queue 1 Cleaner

AQ1C — Dispatches continuous confirmations, cancellations and schedule changes falling into Queue 1.

Auto-Queue Sorting

**AQS** — Distributes PNRs into matching output queues based on your configuration.
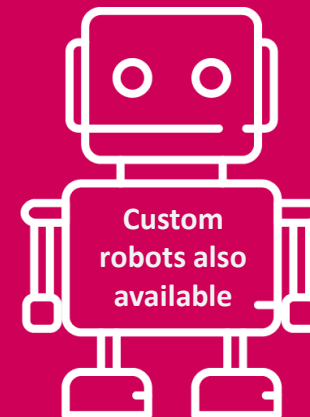

Auto-PNR Finder

APF — Finds the PNR needle in the queues' haystack in a blink.

## Clearing out the **PNR Quality** Jungle

Auto-Quality Control

**AQC** — Takes the stress out of PNR validation process for travel agents.

Custom robots also available

Playing the **Issuance Game**

### Auto-Ticketing Time Limit

ATTL — Calculates and updates the ticketing time limit for PNRs based on airlines' policies.

Auto-Ticketing

ATKT — Automates tickets and EMDs issuance 24/7 so you can enjoy your nights and weekends.

Auto-Schedule Change

ASC — Stays on top of unpredictable volumes of PNRs affected by schedule changes.
