Amadeus Selling Platform Connect

Quarterly product update: Q1 2025
New enhancements. Key highlights. Productivity hacks.

View fare conditions & summary from Booking file

Easily access full fare conditions and summary (Mini Rules) from Booking file and ticket image to know if the ticket can be cancelled, refunded, modified…
Boost productivity with the optimized workflow that ensures you can quickly get the information you need.

Sort by Convenience in Air Shopping results page

Sort Air Shopping results by convenience, displaying direct and non-stop flights with the shortest Elapsed Flying Time (EFT) first, followed by flights with connections also ordered by EFT. This sorting option provides balanced recommendations, prioritizing convenience over price.

NDC: more flexibility with payment & pricing options

Emirates: Book seats and services post-flight issuance with efficient payment upon confirmation.
During an exchange of flights, the workflow is optimized by showing Corporate & Waiver code fields dynamically only when supported by the airline.

Compare and share recommendations effortlessly

Easily compare up to 6 travel options across content (EDI, NDC, and LCC) in the same display and export content seamlessly. Enhance customer service by quickly copying, printing, or saving content. Sharing recommendations has never been simpler.

NDC: Cross-Sell Push for Seats

Unlock additional content during the booking flow, including seats, bags, hotels, transfers, and cars with Cross-Sell Push.
New seat pop-up for NDC content makes it easier to access the Seat Map and create more booking opportunities.
